# PREPARATORY DEPARTMENT.

REV. JOHN A. WHITE, A. B.,

*Principal and Instructor in Greek and Latin.*

THOMAS F. DAY,

*Assistant and Instructor in English and Latin.*

This department is designed to prepare students for the regular courses of the College department. Students are also received who may wish to pursue elementary studies, even though they may have no intention of entering upon one of the higher courses.

Candidates for admission must furnish satisfactory evidence of good character, and must pass examination in all studies of the course lower than those which they wish to pursue.

# OHIO UNIVERSITY.

## ORIGIN OF THE UNIVERSITY.

The Ohio University is the oldest literary institution west of the Allegheny Mountains. Its existence was provided for as early as 1787 in the purchase made from the government of the United States by the Ohio Company of Associates. By the contract between these parties, two townships of land were set apart for the purposes of a University and placed under the care of the legislature of the State. The University was organized under an act of the legislature passed in 1804. Its trustees are appointed by State authority, and the Governor of the State is, *ex-officio*, a member of the board.

## LOCATION.

Athens, the seat of the University, is situated in the south-eastern part of the State. It is easily accessible from the east and the west by the Marietta and Cincinnati railroad and its branches, and from the central and northern portions of the State by the Columbus and Hocking Valley railroad. By these routes it is about one hundred and sixty miles east from Cincinnati, and seventy-five miles south-east from Columbus.

## LIBRARIES.

There are three libraries connected with the institution, which contain many rare and valuable books. These afford to students an opportunity to become acquainted with the best literature of the present and former times.

## APPARATUS AND CABINET.

Much valuable apparatus has been procured for the various departments of mathematics, astronomy, physics and chemistry; and these subjects are illustrated by experiments.

The cabinet, which has been enlarged and re-arranged during the past year, affords important aid in the study of mineralogy and geology. Contributions to this department are earnestly solicited from the friends of the institution.

## LITERARY SOCIETIES.

There are two literary societies in the University—the Athenian and the Philomathean. The members have opportunity to exercise themselves in declamation, composition and debate, and to become familiar

with the modes of conducting business in deliberative assemblies. Each of these societies has its own hall and library.

#### PRIZES.

At the beginning of the present year a prize of fifty dollars was offered, to be awarded to the literary society which proves successful in a contest to take place at the next commencement. This prize is the gift of Rev. David H. Moore of Cincinnati and L. M. Jewett, Esq., of Athens.

#### COURSES OF STUDY.

Those courses of study have been adopted which experience has proved to be best adapted to the purposes of liberal education. The classical course, in fulness and arrangement, will compare favorably with that of the best institutions. The scientific course is so arranged as to meet the wants of young men whose circumstances will not permit them to pursue the fuller course of the classical department. It includes all of the Classical Course except the Greek, or the student in this course may elect to follow the Classical Course, omitting all the Greek and Latin after the Freshman year.

Those who are able to attend for a short time only may take a select course, provided that the studies they may wish to pursue are such as they are qualified to take up with advantage. But no student will take a study to which he has not been assigned, or discontinue a study without permission obtained from the faculty.

No students, except Seniors, are permitted to recite in the Senior studies of the third term; and the *Senior* examinations of the third term are limited to the regular Senior studies of that term.

#### ELECTIVE STUDIES.

Several elective studies have been introduced into the junior year. Each member of the junior class will be required to take four full studies each term, but he may choose which of the elective studies he will take in addition to those prescribed. If German is selected, it must be continued through the year.

#### METHODS OF INSTRUCTION.

Instruction is given both by recitations and by lectures. The constant aim in both is to awaken interest in study, to aid in the acquisition of knowledge, and to develop the powers of thought and communication.

Lectures are delivered by the President during the first and second terms on psychology, and during the third term on the history of philosophy; by the Professor of ancient classics on the language, literature and history pertaining to that department; and by the Professor of natural sciences on chemistry, geology, and astronomy.

The classes in botany and geology make excursions into the surrounding country that they may collect specimens and derive scientific knowledge from original sources. The class in surveying has frequent practice in the use of instruments by actual work.

### MANUALS AND BOOKS OF REFERENCE.

Harkness's, Allen and Greenough's, Zumpt's, and Madvig's Latin Grammars.

Hadley's and Goodwin's Greek Grammars.

Goodwin's Greek Moods and Tenses.

Anthon's Classical Dictionary.

Fiske's Manual of Classical Literature.

Long's Classical Atlas.

Andrew's and Bullion's Latin Lexicons.

Liddell and Scott's and Pickering's Greek Lexicons.

Porter's Human Intellect.

Ueberweg's History of Philosophy.

Thalheimer's Ancient and Modern Histories.

### ADMISSION.

Applicants for admission must present satisfactory testimonials of good character; and students coming from other colleges must present certificates of honorable dismissal.

Examinations for admission are held on the day preceding the beginning of the college year, and on the first day of the second and third terms of the year. Candidates will therefore be present September 7th, 1875. December 4th, 1875, and March 29th, 1876.

Candidates for advanced standing are, in all cases, examined in the studies previously pursued by the class which they propose to enter, or, if they come from institutions in which different authors are read, in those which shall be deemed an equivalent.

Ladies are admitted to all departments of the University on the same terms and under the same conditions as those prescribed for young men.

### DISCIPLINE.

Entering the University will be considered a pledge to obey its rules and regulations. These are few and simple, appealing to the student's self-respect and personal responsibility.

A record is made of the daily work of each student. When the standing of a student, as shown by this record and the examinations, falls below a certain mark, he must review the study.

Records are kept also of each student's deportment. A low standing on either record is followed by private reproof and admonition, and notice is given to the parent or guardian.

Whenever the conduct of a student is such as to indicate that he is unfit to be a member of the University, either because of immorality or because of habitual neglect of his college duties, he will be dismissed. But in the latter case his parents shall first be requested to withdraw him, and if not withdrawn within a reasonable time, he will be dismissed.

## RELIGIOUS INFLUENCE.

The University is not sectarian, and no effort is made to inculcate the doctrines of any particular creed or denomination; but care is taken to promote sound and healthy religious sentiments. Students are required to be present at prayers in the chapel every morning; and a lecture is delivered in the chapel every Sabbath afternoon, at which attendance is also required.

## DEGREES.

The degree of Bachelor of Arts is conferred on those who finish the entire classical course, and pass satisfactory examinations.

The degree of Master of Arts is conferred, on the payment of the usual fee, upon every Bachelor of Arts of three years' standing, who has sustained a good moral character and has pursued professional or scientific studies during that period. The application must be made in person or by letter at least one day before commencement.

The degree of Bachelor of Science is conferred on those who complete the scientific course.

## EXPENSES.

The term fees, which are payable to the treasurer of the University on the first day of each term, are,—

FOR TUITION,	.. .. .	\$10.00.
FOR ROOM RENT,	.. .. .	\$3.00 or 4.00.
FOR CONTINGENT EXPENSES,	.. .. .	\$3.00.

In the preparatory department the charges are,—

FOR TUITION,	.. .. .	\$6.00.
--------------	---------	---------

The other fees in this department are the same as in the college classes.

One student from each county of the State is admitted free of charge for tuition. Any one desiring to have the benefit of a county scholarship must receive his appointment to it from the Auditor and Commissioners of the county, and obtain from them a certificate stating that he is of good moral character and an actual resident of the county from which he is sent.

All students, whether they hold scholarships or not, are charged for room-rent and contingent expenses, and are held liable for any damage that may be done to their rooms.

Board can be obtained within a convenient distance of the University at \$3.00 per week. By forming clubs many of the students board at less than \$2.00 per week. Those students whose circumstances require it are allowed to board themselves, and by this means their expenses may be still further reduced.

The actual cost of an education at the University will depend very much upon the disposition and habits of the student. The necessary

cost is very low—as low as at any other institution affording equal advantages. It is earnestly recommended to parents not to furnish their sons or daughters with extravagant means. The scholarship and character of a student are often injured by a free indulgence in the use of money. Whatever is beyond a reasonable supply exposes him to numerous temptations and endangers his happiness and respectability.
